### Description

CMC Motorcycles is pleased to offer the 2024 Triumph Speed 400 — a modern classic roadster that brings premium build quality, engaging performance and timeless styling into an accessible, lightweight package. Designed as Triumph's entry into the small-capacity segment, the Speed 400 delivers a true "big bike" feel while remaining approachable for newer riders. At the heart of the Speed 400 is a 398cc liquid-cooled single-cylinder engine, producing around 40 horsepower and 37–38Nm of torque. This new-generation engine is smooth, responsive and torque-rich for its size, offering strong mid-range pull and a lively character that makes it equally suited to commuting and spirited riding. The inclusion of ride-by-wire throttle ensures precise control and consistent performance. Braking performance is strong and reassuring, with a 300mm front disc paired with a radial-mounted four-piston caliper and a rear disc, supported by dual-channel ABS. The system delivers confident stopping power that matches the bike's performance and lightweight nature. Ergonomically, the Speed 400 is designed to be accessible and comfortable, with a seat height of around 790mm and a natural upright riding position. This makes it easy to manage at low speeds while still offering a connected and engaging riding stance on the road. Styling is a standout feature, following Triumph's modern classic design language. With its sculpted tank, minimalist bodywork, round LED headlight and high-quality finishes, the Speed 400 carries the look and presence of a much larger Bonneville-style machine in a compact form. Rider technology includes traction control, ABS, ride-by-wire throttle and a clean analogue-style speedometer with integrated LCD display. These features enhance usability and safety while keeping the overall experience simple and
