Description

Brand new 2026 KTM 790 Adventure. NOW WITH A £1000 DEPOSIT CONTRIBUTION. Some photos showing a range of genuine KTM Powerparts available for the bike this year. The 2026 KTM 790 ADVENTURE is designed to make 2-wheeled adventure travel easier. Now, with an adjustable WP APEX front suspension, it not only ticks all the boxes regarding what an adventure machine should be. Instead, it breaks out of the box altogether. Built around a torquey parallel twin-cylinder powerplant, and boasting a class-leading electronics package, it’s the perfect choice for riders looking to chase the horizon. MTC (MOTORCYCLE TRACTION CONTROL) Making use of the latest generation of KTM MTC, traction is improved by using an advanced 6D Inertial Measurement Unit. This not only regulates and controls any slip at the rear wheel but also prevents uncontrolled lifting of the front wheel. With these two forces combined, the motorcycle is guaranteed the best possible acceleration. And when further combined with the data collected from the lean angle sensor, the system detects and controls power wheelies and ensures stability as well as smooth wheel landing and acceleration. UPGRADED TFT DISPLAY A state-of-the-art full 5 TFT display keeps you informed with everything you need to know about the machine below you. Featuring improved functionality, each function is illustrated by an infographic of the motorcycle to directly show the user the relevant field of adjustment. An optically bonded mineral glass display ensures optimum scratch and glare resistance. Additionally, an optional
