Description

THE BIKE SPECIALISTS, TRADING STANDARD AWARD WINNERS. Bike ID: #10313 We have the pleasure of offering for sale our fantastic Yamaha RZV500R, Sporting the stunning red, white and blue livery this machine is an absolute credit to it's previous owners. This is RZV500R has been fully restored by renowned RD500 guru Ian Faulkner who has done an exceptional job with no expense spared. Literally everything was done, barrels & cranks rebuilt using TZ bearings (theyre apparently stronger) that work was done by PJ motorcycle engineers in West Mids (theyre one of the best for this type of work). Ian said the engine runs like dream and is so well balanced. The Carbs were sonic cleaned, engine rebuilt, all seals replaced and engine painted. New tyres, chain and sprockets, rear shock plus many other new OEM parts. The engine is still being run in having covered just 230 miles since rebuild. This low mileage example has covered just 17,907 kilometres (11,126 miles). It offers an extremely rare opportunity to own a legendary 2 stroke iconic Yamaha. The bike is supplied with a file bursting with old MOT certificates, receipts, original service manual and service guide and also detailed photos of the build and will benefit from a full service and full MOT prior to sale. This iconic 2-stroke, was at the forefront in the 1980's as one of the must have GP replica bikes. Yamaha looked at the success of the YZR500 and realised that a road-going version of this would sell well. The RD500LC YPVS was bred from the ground-up to be a race replica, and it was absolutely focused in its mission. Everything was lightened and stripped down for performance. People were in love with the 2 stroke V4 and Yamaha really hit the nail on the head with this motorcycle. 2 strokes don't get much better than this, and our example offers a once in a lifetime opportunity to own what must be, in our opinion, the best example of this 80's dream bike for sale in the world. We are a family-owned company who pride ourselves on the quality of our Motorcycles and all of them are carefully chosen,
