Description

BRAND NEW 2026 APRILIA TUONO V4 1100 FACTORY. IN STOCK NOW. UN-REGISTERED. LAST ONE. (EXCLUDES THE SC PROJECT EXHAUST AND APRILIA BELLYPAN) Some photos showing a range of genuine Aprilia accessories available for the bike this year. Aprilia Tuono V4 is the hyper-naked sports bike that has always been known as the bike that best combines dynamic performance and usability on the road in a single entity. After all, its technical base starts directly from its sister RSV4, but optimized and designed to be more versatile. A combination to offer maximum performance on the track without sacrificing rideability on the road. This new generation strengthens this unmistakable soul with the update to E5+. The displacement grows from the previous 1,077 cc to 1,099 cc, offering an all-time record power for the Tuono, reaching 180 HP at 11,800 rpm. An even more aggressive style with aerodynamic appendages that improve downforce and optimize air flow, to the advantage of both performance and thermal and riding comfort. There is also the possibility to customize the complete a-PRC electronics package with a series of accessory upgrades based on your needs, so you can completely adapt this powerful new interpretation of the Tuono V4 to your riding style. TUONO AT ITS BEST Ready to dance? This Factory version will enhance your sensations even more thanks to the complete set of premium Öhlins suspensions in its semi active Smart EC 2.0 specification. The package includes the Öhlins upside down fork, fully adjustable with TiN treatment and 120 mm of

wheel travel, the Öhlins monoshock with 130 mm of wheel travel and the Öhlins steering damper. This system intervenes on the operation thanks to an algorithm that processes the data transmitted from the vehicle to the dedicated control unit in real time. In this mode, the Aprilia Tuono V4 Factory suspensions adapt their hydraulic calibration, second by second, to the type of route and riding style used. Everything is managed via the a PRC suite thanks to the ADC (Aprilia Damping Control) in Active or Manual mode and integrates perfectly with the Riding Modes and the CornerByCorner accessory, for maximum freedom of customization and tuning. Along with the distinctive livery, the Factory also includes Launch Control (ALC), Slide Control (ASC), Pit Limiter (APL), RACE dashboard display mode and three additional fully customisable Riding Modes (Track1, Track2 and Race) as standard. For road use, Cruise Control (ACC) and Cornering Lights, a pair of additional headlights to illuminate the inside of a bend when leaning over, are also included. The improvements on the new V4s don't end there. To make the most of the impressive a PRC Suite and all the electronic upgrades, the RSV4 and Tuono V4 have also been updated in the graphics of the bright 5” bonded TFTs, now even more user friendly, modern and clear in their information. Each screen has been revised with a view to making the user experience not only more satisfying, but also faster and more intuitive. To always be ready to intervene even in the evening hours and inside tunnels, the control blocks also acquire backlighting. When you're at the top of the food chain, all you have to do is wear dress that warns others to stay away. The entire Factory family brings with them a shared and exclusive family feeling from this generation that no one outside of these versions can bring with them. Instill over whelming fear in everyone who looks at you with the Shakedown Indigo liveries, matte and gloss colours that streamline the surfaces and enhance the technical and aerodynamic elements. Did you know that sharks use a technique called Countershading? Seen from above, the black backs blend into the dark seabed, while seen from below, the white underbelly matches the brightness of the sky, so they can attack their prey without being seen. Factory models mimic this scheme, with one side that keeps them dark and stealthy, but with an upper part that screams colour and danger as soon as you put your bike in attack mode. Part Exchange considered, Nationwide delivery and Finance available (subject to status) SP Motorcycles Ltd, Official Dealers for Aprilia, Moto Guzzi, KTM, and CFMOTO for the South West, call 01392 479400 or email info@spmotorcycles.com
