in 30 years and has a service folder and the original handbooks. They were styled to echo the Coopers of the sixties and today they are still one of the best looking Minis produced. On the road this Cooper is a joy to drive. The 1275 engine is super smooth and is mated to a precise gearbox. Performance is brisk and it revs freely through the rev range and it will certainly make you smile. Wider tyres mean the handling is pin sharp and exactly as a Cooper should be. This a fuel injected Mini so all you need to do is turn the key and go, further features include servo operated disc brakes, an alarm and immobiliser and rear seat belts. Cooper 35 Minis have a fantastic interior and it really sets them apart from other Minis of the era. Porcelain green embossed leather seats, matching steering wheel, Burr walnut dash with three Magnolia dials including a rev counter and an analogue clock. It also features a Pioneer CD player with USB. This Cooper has a gleaming paintwork and a solid shell with vented sills. This is an unrestored example with all of its correct original features that has been well maintained and cared for. We have fully serviced it with many new parts and it has a long MOT with the advisories completed and is ready to go, it offers its lucky new owner the chance to join an exclusive club limited to just 200 examples. Viewings are welcome and I am happy to answer questions you may have either through here or on 07752414395 or 01425 839617 (Paul) I am happy to send any further images and two walk round videos are available. We also offer a delivery service. We are constantly preparing Classic Minis for sale so please get in touch with your requirements as we are always happy to help. Thanks for looking.
