£115,000.00

Engine Size (in ccm)	2,979	Fuel	Petrol
Mileage	6 Miles	Model Year	2017
Power	493 BHP	Transmission	--

Description

This fantastic car is now Sold. Are you looking to buy or sell a high quality Modern Classic Car? Contact Appreciating Classics – we can offer a purchase or we can offer commission – sale or return options to suit you. Brief Viewing by Appointment only. Here we are very proud to offer for sale this stunning BMW M4 DTM Champion Edition with just 6 miles from new! For those not familiar with the DTM Champion Edition, it was built to celebrate BMW's DTM driver title with Marco Wittmann. Only 200qty units were produced for the world & reported only 23qty for the UK market making this a seriously rare car, which was much more than just a badging exercise as is often the case with celebration editions. Finance available 6 miles from new 2x original keys Fresh major service at BMW BMW service history – all recorded correctly on the idrive system Excellent 'as new' condition throughout Original plastic drivers footwell protector still in place Passenger floor mat still in wrapper Cardboard tags for each wheel still present Superb underside condition Unopened original harnesses are included Correct & complete original suspension toolkit included Custom indoor fitted car cover included The BMW M4 DTM Champion Edition features the same mechanical upgrades as the BMW M4 GTS. Compared to the standard series production BMW M4, this special edition model delivers an increased power output of 500bhp (69bhp increase!), a top speed of 190mph & a claimed 0 to 62mph of just 3.8 seconds. The BMW M4 DTM Champion Edition is not only extremely rare & collectible but it is a very serious machine from front to back. The full specification of these variants is huge & far too much to list here. History Whilst this example is basically delivery mileage, it has still had servicing carried out at BMW as below, all of which is of course

recorded within the idrive system with matching invoices within the history file. 2019 – 4 miles 2026 – 6 miles Also with in the history file is the original cardboard tags for each wheel, as well as the full original backpack of course. Spare key is also with the car, along with a DTM magazine & other related articles. Body & Paintwork The Alpine white paintwork on this M4 DTM presents very well as you would fully expect. This example has been stored indoors in a heated environment, so everything presents 'as new'. All decals, lights & glass are original in excellent condition, as is all the carbon fibre. Being the DTM – the overall look of the vehicle is super clean yet very aggressive, arguably the best looking M4 variant produced. Interior & Trim The interior of this car looks absolutely fantastic! Obviously the interior of this car looks very special, with the carbon fibre bucket seats, the colour coded roll cage & the extended alcantara throughout. All areas are in fantastic condition of course, the drivers footwell even still has the factory plastic footwell protector in place, as well as the protection films on the kick plates & the wrapper on the passenger floor mat. Within the boot are the un-used harnesses, along with the complete suspension adjustment toolkit & a custom indoor fitted car cover, plus the front number plate plinth which has never been used. Engine The BMW M4 was released to rave reviews thanks largely to the great performance & the Competition models raised the bar further with 444bhp from factory. A very capable & very fast coupe, that can also be driven daily in great comfort or indeed as a continent GT mile muncher. The DTM takes things to a whole new level, with the same cooling & water injection system as the M4 GTS, that means 500bhp from factory. This equates to incredibly impressive performance figures of 190mph top speed & a claimed 0 to 62mph of just 3.8 seconds! The car has just had a full service by BMW & wants for absolutely nothing. Obviously the car starts & runs fantastically, with no delay in cold starting & has had a full check over at BMW whilst having a service. As can be seen from the pictures, the engine bay itself presents 'as new'. Running Gear All running gear is in superb order throughout.
