Description

CMC Motorcycles is pleased to offer the 2026 Keeway V Cruise 125 — a stylish, entry-level cruiser that combines classic V-twin-inspired looks with lightweight usability and modern features, making it an excellent choice for new riders and urban cruising. At the heart of the V Cruise 125 is a 125cc liquid-cooled single-cylinder engine, producing around 13 horsepower. The engine is designed to deliver smooth, predictable power with enough low-end torque to suit relaxed riding and city commuting. Its performance is accessible and easy to manage, making it ideal for A1 licence holders or riders looking for a laid-back riding experience. The bike is built around a low-slung cruiser-style chassis, giving it a planted feel on the road while remaining manageable thanks to its relatively light weight. This setup helps inspire confidence at low speeds and makes it easy to handle in urban environments. The ride quality suits the bike's cruiser nature, absorbing bumps and delivering a relaxed, steady feel on typical road surfaces. Ergonomically, the V Cruise 125 features a low seat height, forward foot controls and wide handlebars, creating a laid-back riding position that is both comfortable and confidence-inspiring. This cruiser stance makes it particularly appealing for riders who prefer a relaxed, easy-going riding style. Styling is one of its standout features, with a design that mimics larger V-twin cruisers. It includes a sculpted fuel tank, low profile, alloy wheels and modern touches such as LED lighting, giving it a premium look for its class. At CMC we pride ourselves on customer satisfaction and all of our bikes undergo a 37 point pre delivery inspection which includes a fresh oil and filter service unless recently changed, if the bike has less than six months MOT we will put a new one on, giving you complete confidence when buying from CMC. 673
