Description

CMC Motorcycles is pleased to present the 2024 Honda CBR600RR — an exhilarating middleweight supersport motorcycle that combines race-derived engineering, high-revving four-cylinder performance and advanced electronic rider technology. Returning to the European market with significant updates, the CBR600RR delivers an exciting blend of precision handling, track-focused performance and everyday road usability. At its heart is Honda's 599cc liquid-cooled, DOHC, 16-valve inline four-cylinder engine, producing 119bhp (89kW) at 14,250rpm and 63Nm of torque at 11,500rpm. Designed to deliver its performance high in the rev range, this sophisticated engine offers thrilling acceleration, a responsive throttle and the unmistakable soundtrack of a high-performance Honda four-cylinder. Revised internal components help ensure durability and reliability under demanding riding conditions. The riding position is unmistakably supersport-focused, with low clip-on handlebars, rear-set footrests and a sculpted seat designed to provide excellent control during aggressive riding. The 820mm seat height and 18-litre fuel tank offer a practical balance for road use, while the aerodynamic fairing and carefully shaped bodywork help reduce wind resistance and provide useful protection at higher speeds. Styling is sharp, purposeful and unmistakably inspired by Hondas racing heritage. Its aerodynamic full fairing, aggressive front profile, sculpted fuel tank and distinctive LED headlights create a striking appearance. At CMC we pride ourselves on customer satisfaction and all of our bikes undergo a 37 point pre delivery inspection which includes a fresh oil and filter service unless recently changed, if the bike has less than six months MOT we will put a new one on, giving you complete confidence when buying from CMC.
