Edition is the true essence of GTR. The exterior of this R35 is a testament to its 9,000-mile life. The paintwork retains a fantastic finish, it was detailed by us in 2023. The Track Edition is distinguished by its wider front wings (due to the wider track), wider bumper, 20" Nismo forged alloy wheels, lashing of carbon fibre, interior changes & much more under the skin of course. All panels align as they should & the aggressive aero, including the front splitter & side skirts are in great condition. As we are notoriously "fussy," we have noted a negligible couple of very small stone chips, but otherwise, the car presents beautifully. Interior & Trim The cabin remains a focus of high-performance luxury. This example features the sought-after Nismo carbon wingback seats, which provide incredible lateral support while remaining comfortable for longer journeys. The Alcantara & leather surfaces show very little signs of wear, & the carbon fibre trims remain in fantastic order. The infotainment system & Bose sound system are in perfect working order, offering a modern touch to this visceral driving machine. Every button, dial & switch operates as it should, with the cabin presenting in excellent condition, showing minimal signs of wear. Engine At the heart of the GT-R sits the hand-assembled 3.8-litre twin-turbocharged VR38DETT one of the most celebrated performance engines of the modern era. In track edition form it delivers over 560bhp powering this R35 from 0-60 in 2.7 seconds & onto 196mph. Having had a full major service in our workshop very recently, this R35 is ready to be enjoyed. The engine bay itself presents well, other than a small amount of paint flake on the front cover. Running Gear With only 9,302 miles, this GT-R has been well looked after & maintained to high standards. The Track Edition's suspension is lifted straight from the R35 GT-R Nismo, comprising adjustable Bilstein dampers, new front wishbones, & a lightweight anti-roll bar. The lightweight Nismo 20" wheels are also lifted from the Nismo, & the car features Nismo-specification body bonding for increased rigidity & improved on-track performance. The wheels are in great condition & wrapped in Michelin Pilot Sport tyres, with only a minor blemish on one.
