Description

CMC Motorcycles is pleased to offer the 2021 BMW R 1250 GS TE — a benchmark adventure touring motorcycle that combines exceptional long-distance comfort, advanced technology and class-leading versatility. As the Touring Edition (TE), this model comes equipped with a high level of factory options, making it one of the most complete and capable adventure bikes available. At the heart of the R 1250 GS is a 1,254cc air/liquid-cooled boxer twin engine featuring BMW's ShiftCam variable valve timing system. It produces around 136 horsepower and 143Nm of torque, delivering strong, smooth power across the entire rev range with exceptional low-end pull and effortless high-speed cruising capability. The bike's balanced geometry and low centre of gravity contribute to confident handling both on-road and on light off-road terrain. Braking performance is strong and confidence-inspiring, with dual front discs, radial calipers and BMW's Integral ABS Pro system, offering controlled and stable braking even when cornering. Ergonomically, the R 1250 GS is designed for long-distance comfort, featuring an upright riding position, wide handlebars and an adjustable seat height. The riding position provides excellent visibility and comfort over extended journeys, making it ideal for touring. The TE (Touring Edition) specification adds a comprehensive package of premium features, often including heated grips, cruise control, riding modes, pannier mounts, keyless ignition and a full-colour TFT display with connectivity. This makes it exceptionally well equipped straight from the factory. Styling is unmistakably GS, with a tall stance, asymmetrical LED headlight and rugged bodywork that reflects its dual-purpose capability. The design is both functional and iconic, reinforcing its reputation as a go-anywhere machine. At CMC we pride ourselves on customer
