Description

CMC Motorcycles is pleased to offer the 2020 Honda NC750X — a highly versatile crossover motorcycle designed to handle commuting, touring and everyday riding with exceptional practicality, comfort and fuel efficiency. Known for its unique blend of adventure-bike styling and real-world usability, the NC750X has become one of Honda's most respected all-rounders. At the heart of the NC750X is a 745cc liquid-cooled parallel twin engine producing around 54–58 horsepower and 68–69Nm of torque. The engine is specifically tuned for strong low and mid-range performance, delivering smooth acceleration and excellent fuel economy rather than high-revving peak power. This makes the bike particularly enjoyable and easy to ride in everyday conditions. Braking performance is reassuring and predictable, with a large front disc and rear disc supported by ABS as standard. The bike's balanced chassis and manageable power delivery combine to create a very confidence-inspiring riding experience for both newer and experienced riders. One of the NC750X's standout features is its practicality. Instead of a traditional fuel tank position, Honda integrated a large 23-litre storage compartment capable of holding a full-face helmet or everyday luggage. This unique "frunk" design has become one of the defining characteristics of the NC range and is regularly praised by owners for commuting and touring convenience. Ergonomically, the NC750X features a comfortable upright riding position with wide handlebars and a manageable seat height around 802–830mm depending on specification and market. The relaxed riding triangle and good wind protection make it particularly comfortable for longer journeys and everyday use. Technology includes Honda Selectable Torque Control (traction control), LED lighting and ABS. At CMC
