### Description

CMC Motorcycles is pleased to offer the 2018 Honda CB500F — a well-balanced and highly versatile middleweight naked motorcycle that combines everyday practicality, smooth twin-cylinder performance and approachable handling. Designed to suit a wide range of riders, from newer licence holders to experienced commuters, the CB500F delivers a dependable and confidence-inspiring ride. At the heart of the CB500F is a 471cc liquid-cooled parallel-twin engine, producing approximately 47 horsepower and 43Nm of torque. This engine is known for its smooth, linear power delivery and strong mid-range, making it ideal for both city riding and longer journeys. The six-speed gearbox and fuel injection system ensure consistent performance, efficiency and easy rideability across a variety of conditions. The chassis is built around a lightweight steel diamond frame, offering excellent balance and predictable handling. With a kerb weight of around 188kg, the bike feels stable yet easy to manoeuvre, making it particularly accessible for riders building confidence while still enjoyable for more experienced users. Braking performance is strong and progressive, with a front disc and rear disc setup supported by ABS. This ensures reliable stopping power and added safety, particularly in varied road and weather conditions. Ergonomically, the CB500F offers an upright and natural riding position, with a seat height of around 790mm. The neutral stance and slim profile make it easy to handle at low speeds while still providing comfort for longer journeys. Styling is clean and aggressive, with minimal bodywork, exposed engine components and a modern naked-bike aesthetic. LED lighting and sharp design elements give it a contemporary streetfighter look while maintaining Honda's reputation for quality and refinement. At CMC we pride
