classic Mini deal to include two Mini vans in 2019, we just had to keep it! Finished in Old English White it adorned our company logo, now removed without trace, and was a fantastic promotional tool and versatile vehicle, so both good looking and hard working! Tastefully accessorised with expensive period features such as genuine Cooper steel wheels, Lucas lighting and much more, this example presents really well with a clean body-coloured underside too. The correct pressed metal front grille that is not removable like the saloons and sliding windows are still fitted and all chrome bumpers have a bright mirror finish. The simple fold-down tailgate gives easy access to the ample load space which, along with the rest of this commercial vehicle, has seen very little recent hard work! A stunning show piece. INTERIOR A very classy place to be and not like the utilitarian interior the vehicle was born with! Immaculate Newton commercial carpets and additional sound deadening are fitted and all door cards are pristine. There are some light stains to the vinyl headlining and all supplementary expensive Smiths gauges function. Modern conveniences like the USB charging sockets and a period style radio CD player co-ordinate beautifully with traditional improvements such as the Mota-Lita wooden steering wheel. Thoughtful enhancements such as an indicator on buzzer and electric fan switch make classic car outings both fun and reassuring. This example is one to enjoy. ENGINE & TRANSMISSION Simple motoring with the 998cc A-series engine allowing the novice home mechanic to tinker if desired! Producing just 39BHP, progress is sedate, but the looks and smiles generated from the sound of the Fletcher part stainless exhaust system makes up for it! An uprated cooling system and many new components offers reliable use and for the exhibitionists, the engine bay is stunningly clean. The four-speed gearbox is fitted with a new clutch and offers smooth and precise gear changes. WHEELS, TYRES & BRAKES Desirable and genuine Mini Cooper steel wheels are shod in grippy Yokohama Advan 165/70 R10 tyres with masses of tread. An uprated front brake disc conversion is a massive improvement over the standard twin leading-shoe drum set up. HISTORY FILE This now very rare Mini Pick-up has luckily survived the typical life of commercial vehicle abuse and now enjoys a pampered show circuit instead! It is generally reckoned that the Minivan and Pick-up had a useful commercial life of about five years, (Source: Classic Van & Pick-up June 2011), so this example registered on the 1st August 1981 has done very well to still be here! Purchased by KGF Classic Cars in September 2019 from a classic Mini collector, Mr Coe as part of a three car deal to include two Minivans, the decision was made to keep this little gem as a promotional vehicle with an element of practicality! Mr Coe had a collection consisting of three commercials, two Coopers and a delivery mileage Mini Ritz and was passionate about anything Mini! A colossal A4 folder of history documents the massive expenditure along with a five-page magazine feature in Miniworld dated July 2002. A vehicle handbook in the grey Supercovers folder and period brochure are also included. Super cool, super rare and super desirable, this little Mini has it all! MOT March 2027, Tax Exempt and HPI Clear. To see a complete set of photographs of this car please copy the link below: <https://www.flickr.com/photos/kgfclassiccars/albums/72177720332575467>

About Us

KGF Classic Cars was formed by the owner's desire to pass on the enjoyment of amazingly original, modern classic cars and the pleasure these vehicles offer to their appreciative owners. The eldest son of Italian-born parents – whose families came to the Cambridgeshire Fens after WWII to make bricks for new housing – Karl Fasulo grew up in the 70s and 80s when there were fewer cars on the roads. His appreciation of beautiful motors began when his engineer father, Sav, purchased a red 1983 Mercedes 280SL as a weekend car back in 1985. That same Mercedes is still well-loved and driven regularly by Karl and is now in the showroom for all to see! After a successful career spanning two decades selling and managing premium vehicles for dealerships in London and Cambridgeshire, Karl decided to set up KGF Classic Cars, to source original, modern classic cars and share them with like-minded knights of the road. He says: "As a kid, I would squeeze in the back of our lovely red Mercedes with my brother and sister (seatbelts were not mandatory at that time!) – Mum and Dad in the front and all of us enjoying the outing. I would gaze out at other cars and my brother and I would shout out all the makes and models of the ones going by! "With encouragement from my father, I entered the world of classic cars at 15, when I saved up and bought a 1964 Riley Elf Mk 2. This car was cleaned and polished every weekend until I was 17 when I threw away my L-plates and took to the road. My interest never subsided, even during my career at BMW – to the point where driving these older cars gave me more pleasure than the modern offerings. Perhaps it is just happy childhood memories, but there is something about those classics which draws me back to them every time . . ." He added: "I consider it a privilege to meet and do business with people who love them as much as I do. So, whether you are buying or selling – or just browsing (taking a spin down memory lane, perhaps!) I hope you enjoy this website." All the vehicles offered by KGF Classic Cars are personally checked, meticulously inspected and driven by us to ensure they meet the incredibly high standards that are becoming very hard to find. The cars are eventually selected with the ultimate aim of providing the new owner with the best possible experience of that model, whatever it may be. Visit our purpose built secure showroom for viewings, test drives and a relaxed buying experience, whereby fresh coffee and refreshments can be enjoyed in a friendly and lighthearted environment.
