Description

CMC Motorcycles is excited to offer the 2024 Suzuki DL650XT V-Strom — a proven middleweight adventure-touring motorcycle that combines reliability, long-distance comfort and everyday versatility. Designed as a true all-rounder, the V-Strom 650XT is equally at home commuting through the city, touring across countries or exploring light off-road trails. At the heart of the DL650XT is a 645cc liquid-cooled 90-degree V-twin engine, delivering around 70–71 horsepower with strong, usable torque. Known for its smooth and predictable power delivery, the engine offers excellent control at low speeds and relaxed, efficient cruising on longer journeys. Its flexible nature makes it one of the most dependable engines in the adventure-touring class. The chassis is built for stability and comfort, featuring a lightweight twin-spar frame and long-travel suspension that provides a composed ride across a variety of road surfaces. The XT version enhances capability with spoked wheels, hand guards and added protection, making it more suitable for light off-road use while retaining excellent road manners. Ergonomically, the V-Strom 650XT is designed for long-distance comfort, with an upright riding position, wide handlebars and a well-padded seat. The adjustable windscreen helps reduce wind fatigue on motorway rides, while the overall layout ensures excellent rider comfort and control over extended periods. Rider-focused features include traction control, ABS, Low RPM Assist and Easy Start, all designed to enhance confidence and ease of use in a wide range of riding conditions. These systems support the rider without adding unnecessary complexity. At CMC we pride ourselves on customer satisfaction and all of our bikes undergo a 37 point pre delivery inspection which includes a fresh oil and filter service unless recently changed, if the
