Description

CMC Motorcycles is proud to offer the 2024 Triumph Scrambler 1200 X — a modern classic scrambler that blends iconic styling, torque-rich performance and genuine dual-purpose capability into a highly versatile and accessible package. Designed as a more road-focused and user-friendly addition to the Scrambler 1200 range, the X delivers a refined balance of everyday usability and off-road potential. At the heart of the Scrambler 1200 X is a 1,200cc liquid-cooled parallel-twin engine, producing around 89 horsepower and 110Nm of torque. Tuned for strong low-to-mid range performance, the engine delivers a broad, usable powerband with smooth throttle response and a distinctive characterful exhaust note. The revised tuning for 2024 brings peak power and torque lower in the rev range, enhancing real-world rideability and responsiveness. The chassis is built around a tubular steel frame paired with a 21-inch front wheel and long-travel suspension, giving the bike authentic scrambler capability. Suspension is provided by high-quality Marzocchi components, offering a balance of comfort and control across both tarmac and rougher terrain. The setup is slightly more road-biased than previous models, making it particularly well suited to everyday riding while retaining off-road confidence. Ergonomically, the Scrambler 1200 X is designed to be more accessible, with a seat height of around 820mm. The upright riding position, wide handlebars and natural standing posture make it comfortable for long journeys while also ideal for light off-road exploration. Styling remains true to Triumph's modern classic DNA, with a strong scrambler identity. High-level twin exhausts, wire-spoked wheels, minimal bodywork and premium finishes give the bike a rugged yet refined appearance. The design pays homage to classic scrambler
