### Description

CMC Motorcycles is proud to offer the 2020 Indian Motorcycle FTR 1200 — a bold, flat-track-inspired roadster that blends aggressive styling, strong V-twin performance and premium components into a truly distinctive street bike. Inspired by Indian's championship-winning FTR750 race machine, the FTR 1200 delivers a raw, engaging riding experience unlike anything else in its class. At the heart of the FTR 1200 is a 1,203cc liquid-cooled 60-degree V-twin engine, producing around 120–123 horsepower and approximately 115–120Nm of torque. This engine delivers strong mid-range punch and rapid acceleration, with a lively, torque-rich character that makes it both exciting and highly responsive on the road. The chassis is built around a steel trellis frame, contributing to a rigid yet balanced platform. With a wheelbase of around 1,524mm and a relatively upright geometry, the bike offers stable handling while still feeling agile and playful, particularly in spirited riding situations. Braking performance is premium, with dual 320mm front discs paired with Brembo calipers and ABS as standard. The braking system delivers strong, controlled stopping power to match the bike's performance. Styling is one of its defining features, with minimal bodywork, a sculpted tank, flat-track-inspired stance and high-mounted exhaust. The overall design is aggressive, raw and unmistakably American, setting it apart from more traditional naked or sport bikes. Rider technology includes ABS, traction control, riding modes and a TFT display. These features enhance usability while maintaining the bike's performance-focused nature. At CMC we pride ourselves on customer satisfaction and all of our bikes undergo a 37 point pre delivery inspection which includes a fresh oil and filter service unless recently changed, if the bike has less than six months
