### Description

CMC Motorcycles is pleased to offer the 2021 Suzuki GSX-S750Z — a middleweight naked streetbike that blends supersport-derived performance with everyday usability and aggressive styling. At the heart of the GSX-S750Z is a 749cc liquid-cooled inline-four engine derived from the GSX-R750, tuned for road use. It produces around 112–114 horsepower and roughly 59–60 lb-ft (about 80Nm) of torque, giving it strong mid-range punch and a lively, responsive character. The engine is known for smooth acceleration and a rev-happy feel, with power that builds progressively and encourages spirited riding. The chassis is built around a steel frame designed for stability and agility, with a riding position that keeps things sporty but still comfortable for daily use. At around 213kg wet weight, it is not the lightest in its class, but it feels planted and confident at speed while still being manageable in urban conditions. Braking performance is strong, with dual front discs and radial-mounted four-piston calipers providing solid stopping power and good feedback. ABS is available, adding an extra layer of safety for varied road conditions. Ergonomically, the GSX-S750Z offers a standard naked bike riding position: upright handlebars, moderate seat height (around 820mm), and a comfortable seat designed for longer rides. It strikes a good balance between sporty control and everyday comfort. Technology includes multiple riding aids such as traction control modes, low RPM assist for smoother city riding, easy-start ignition, and a clear LCD display showing key ride information. These features make it more accessible and user-friendly than older inline-four naked bikes. At CMC we pride ourselves on customer satisfaction and all of our bikes undergo a 37 point pre delivery inspection which includes a fresh oil and filter service unless
