### Description

CMC Motorcycles is pleased to offer the 2013 Suzuki GSX-R600 — a sharp, race-bred supersport motorcycle that delivers high-revving performance, precise handling and proven track capability. As part of Suzuki's legendary GSX-R lineage, the L3 model continues to uphold a reputation for reliability, balance and exhilarating riding dynamics. At the heart of the GSX-R600 is a 599cc liquid-cooled inline four-cylinder engine, producing around 123–125 horsepower and approximately 69Nm of torque. This engine is designed for strong top-end performance, delivering rapid acceleration and a thrilling power surge at higher revs, while still maintaining smooth and predictable throttle response for road use. The chassis features a lightweight twin-spar aluminium frame, offering excellent rigidity and feedback. Combined with a compact wheelbase and aggressive geometry, the GSX-R600 delivers precise, agile handling that excels in fast corners and technical riding environments, making it equally capable on road and track. Braking performance is strong and consistent, with dual front discs and radial-mounted Brembo monobloc calipers delivering powerful stopping capability. ABS is included on this model, offering added safety without compromising performance feel. Ergonomically, the GSX-R600 features a compact, aggressive riding position with a seat height of around 810mm. The low clip-on handlebars and rear-set footpegs create a focused riding stance designed for maximum control and aerodynamic efficiency. Styling is unmistakably GSX-R, with sharp aerodynamic fairings, a slim tail section and a race-inspired design that reflects its track-focused DNA. At CMC we pride ourselves on customer satisfaction and all of our bikes undergo a 37 point pre delivery inspection which includes a fresh oil and filter service unless recently
