Model Year	2013		

Description

CMC Motorcycles is pleased to offer the 2013 Honda CBR600RR — a legendary middleweight supersport motorcycle renowned for its razor-sharp handling, high-revving inline-four performance and race-inspired engineering. Developed with strong links to Honda's MotoGP technology, the CBR600RR delivers an exceptional balance of agility, precision and everyday reliability, making it one of the most respected supersport machines ever produced. At the heart of the CBR600RR is a 599cc liquid-cooled inline four-cylinder engine producing around 118 horsepower and 66Nm of torque. The engine is designed to thrive at higher revs, delivering smooth low-end response before building into strong top-end power and an exhilarating rush through the upper rev range. Its refined fuelling and precise throttle response make the bike equally rewarding on the road and track. The chassis uses a lightweight aluminium twin-spar frame developed for maximum rigidity and agility. Combined with the compact dimensions and balanced weight distribution, the CBR600RR offers exceptionally responsive handling and precise cornering behaviour that has long made it a benchmark in the supersport category. Braking performance is powerful and confidence-inspiring, with dual front discs and radial-mounted calipers providing strong stopping power and precise control. Many models were also available with Honda's Combined ABS system, adding extra stability and braking confidence. Ergonomically, the CBR600RR features a focused supersport riding position with low clip-on handlebars, rear-set foot pegs and a compact seat height around 820mm. The riding posture is designed for aerodynamic efficiency and maximum rider control during spirited road and track riding. Styling is aggressive and aerodynamic, with sharp bodywork, compact proportions and

race-inspired detailing giving the bike a purposeful and unmistakably sporty appearance. The centrally mounted exhaust and sleek tail section reinforce its clean supersport design. Technology and engineering refinement were major strengths of the CBR600RR, with Honda focusing heavily on balance and rider feedback rather than outright peak numbers alone. The bike became especially respected for its predictable handling, smooth power delivery and approachable performance compared to more extreme rivals. At CMC we pride ourselves on customer satisfaction and all of our bikes undergo a 37 point pre delivery inspection which includes a fresh oil and filter service unless recently changed, if the bike has less than six months MOT we will put a new one on, giving you complete confidence when buying from CMC. 13464 miles, All books and keys, Under seat exhaust, Rear seat cowl, ABS, HRC colours FREE DELIVERY up to 160 miles from store. About Us

Welcome to CMC, CMC was established in 1975 when Maurice Feltham took his passion for riding and rebuilding motorcycles one step further by purchasing Staveley Motorcycles a small dealership at that time dealing with a mix of British and Japanese used bikes and parts. CMC is now operating 5 stores and became the largest retailer of new Yamaha's in the UK. We are also Isle of Man TT winners in 1999 and 2000 with David Jefferies and became Motorcycle News Dealer of the Year for stores with more than one outlet. With over 800 new and used bikes to choose from we have something for everyone. Buy with confidence with over 40 yrs in motorcycle trading To view one of our bikes simple call us, or visit our website to enquire online.
