### Description

CMC Motorcycles is pleased to offer the 2025 Honda CB125R — a premium lightweight naked motorcycle that combines aggressive Neo Sports Café styling with refined engineering, agile handling and modern technology. Designed for newer riders and A1 licence holders who want a more sophisticated 125cc machine, the CB125R delivers an impressive blend of sporty performance, premium build quality and everyday usability. At the heart of the CB125R is a 124cc liquid-cooled single-cylinder DOHC engine producing around 15 horsepower and 11.6Nm of torque — the maximum permitted for the A1 licence category. The engine delivers smooth, responsive performance with strong mid-range power and lively throttle response, making the bike particularly enjoyable in urban riding and twisty back roads. Honda's engineering refinement gives the CB125R a more mature and premium feel than many entry-level 125cc motorcycles. Ergonomically, the CB125R features a sporty yet comfortable upright riding position with wide handlebars and a seat height around 816mm. The bike offers a balanced riding posture that works well for commuting, everyday riding and longer journeys while still maintaining a sporty feel. Styling follows Honda's Neo Sports Café design philosophy, blending retro-inspired details with sharp modern bodywork. The sculpted fuel tank, minimalist tail section, round LED headlight and exposed mechanical elements give the CB125R a sophisticated appearance that closely resembles larger-capacity motorcycles in Honda's CB range. Technology includes full LED lighting, a modern LCD instrument display, slipper clutch and high-quality switchgear. The 2025 model continues Honda's focus on premium detailing and refinement within the lightweight category. At CMC we pride ourselves on
