Description

CMC Motorcycles is pleased to offer the 2024 Voge 900 DSX — a highly equipped adventure-touring motorcycle that has quickly gained attention for combining strong performance, premium features and impressive value for money. Designed as a serious middleweight adventure bike, the 900 DSX delivers long-distance comfort, modern technology and genuine off-road capability in a package that competes directly with far more expensive rivals. At the heart of the 900 DSX is an 895cc liquid-cooled parallel twin engine producing around 95 horsepower and 95Nm of torque. The engine delivers smooth, flexible power with a strong mid-range response that works exceptionally well for touring, motorway riding and light off-road use. Its character is relaxed yet responsive, making the bike easy to ride while still offering strong acceleration when needed. Ergonomically, the 900 DSX is designed for comfort and touring practicality, featuring a relaxed upright riding position, wide handlebars and a seat height of around 825mm. The large fairing and windscreen provide strong weather protection, making it especially well suited to long-distance riding. One of the biggest strengths of the Voge 900 DSX is its extensive standard equipment. Features include heated grips, heated seat, cruise control, quickshifter, TFT display with smartphone connectivity, tyre pressure monitoring, riding modes, traction control and even blind-spot monitoring on some versions. The bike also includes modern conveniences such as keyless ignition, auxiliary lighting and USB charging ports. Styling is rugged and modern, with clear adventure-bike inspiration and a purposeful touring stance. The tall screen, protective bars and aggressive bodywork give it a premium adventure-tourer appearance that has drawn comparisons to larger European ADV models. At CMC we pride
