Description

1967 FERRARI 330 GTC Coupe Chassis Number: 10157 Registration Number: PHR45F A well known & fully restored example that has passed thougfh the hands of both Talacrest & Hendon Way motors in the past. This car was originally delivered in August 1967 to Maranello Concessionaires as a UK demonstrator vehicle. This is a very rare car being one of just 22 examples produced in Right Hand Drive. The 4-litre 330's were available in two alternative body styles - Coupe (GTC) or Spyder (GTS). The 330 GTC frame was designated Tipo 592. These chassis's were outwardly very similar to those already used on Ferrari's 275 GTB being a traditional tubular steel chassis. Hydraulic disc brakes were fitted all-round along with fully independent suspension. Borrani's beautiful ten-hole cast alloy wheels were standard although spoked wheels from the same manufacturer were optionally available. Engine-wise the GTC used Ferrari's twin cam four-litre Tipo 209/66 60° V12. Power was quoted by the factory as being 300bhp at 7000rpm with three twin choke Weber 40 carburettors. The engine was matched by a five-speed gearbox. Performance was impressive with a car reaching 0-60 in under 6.5 seconds whilst top speed was in excess of 150mph. Despite its mix of old and new features, the 330 GTC was quite simply among the best-looking GT's of its era. With a laid back style, it was never as confrontational as some of Ferrari's jaw-dropping berlinetta's - this was a car for the customer who
