Description

CMC Motorcycles is pleased to offer the 2021 Yamaha XSR700 XTribute — a distinctive neo-retro motorcycle that blends classic scrambler-inspired styling with modern performance and everyday usability. Designed as a tribute to Yamaha's iconic heritage models, the XTribute delivers a unique combination of character, versatility and engaging ride quality. At the heart of the XSR700 XTribute is a 689cc liquid-cooled parallel-twin engine, producing around 74–75 horsepower and 68Nm of torque. This highly regarded engine delivers strong mid-range performance and smooth, responsive power, making it equally enjoyable in city riding and on open roads. Its flexible nature and lively character provide an engaging yet manageable riding experience. The chassis is lightweight and agile, built around a compact steel frame that contributes to the bike's responsive handling and balanced feel. With a kerb weight of around 186kg, the XTribute is easy to manoeuvre while maintaining stability and confidence through corners. Suspension is tuned for a blend of comfort and control, with telescopic front forks and a rear monoshock providing a composed ride across varied road surfaces. The setup is well suited to everyday riding while also allowing for more spirited use on twisty roads. Ergonomics are upright and relaxed, with wide handlebars and a natural seating position that enhance comfort and control. The riding position supports longer journeys while remaining accessible and confidence-inspiring for a wide range of riders. Styling is a defining feature of the XTribute, drawing inspiration from Yamaha's legendary XT500. Retro design elements such as a flat seat, fork gaiters, classic colour schemes and block-pattern tyres give it a rugged scrambler look, while modern touches ensure practicality and reliability. Braking performance is strong and
