### Description

CMC Motorcycles is proud to offer the 2021 Triumph Trident 660 — a modern middleweight roadster that combines sharp styling, accessible performance and advanced rider technology into a highly versatile and engaging package. Designed to welcome a new generation of riders into Triumph's range, the Trident delivers a perfect balance of fun, control and everyday usability. At the heart of the Trident 660 is a 660cc liquid-cooled inline three-cylinder engine, producing around 80–81 horsepower and 64Nm of torque. This triple-cylinder setup delivers a distinctive character, blending strong mid-range punch with smooth top-end performance. The result is responsive acceleration and a flexible powerband that feels lively without being intimidating. The chassis is built around a lightweight steel frame, contributing to the bike's agile and confidence-inspiring handling. With a wet weight of around 189kg, the Trident feels light and easy to manoeuvre, making it ideal for both urban riding and more spirited use on twisty roads. Suspension is provided by Showa components, tuned to deliver a balance of comfort and control. The setup offers good feedback and composure, allowing the bike to remain stable through corners while still absorbing everyday road imperfections effectively. Ergonomically, the Trident features an upright and relaxed riding position with a comfortable seat height of around 805mm. The slim profile and natural reach to the handlebars make it accessible to a wide range of riders, while still offering a sporty and connected feel. Styling is clean and modern, with a minimalist roadster design that blends retro-inspired elements with contemporary detailing. The round LED headlight, sculpted fuel tank and compact tail section give it a distinctive and premium appearance that stands out in the middleweight category. Rider-focused
