### **Description**

CRF125F MODELS SMALL WHEEL VERSION 17" FRONT WHEEL 14" REAR OR BIG WHEEL VERSION 19" FRONT WHEEL 16" REAR For children, the new CRF125F is the perfect introduction to motorcycling that quickly builds skills and machine control, so useful in adult life whether in competition or out on the open road. The CRF125F not only features a larger capacity tank; its air-cooled four-speed engine has been tuned specifically to give plenty of novice-friendly bottom-end torque. The addition of electric start also makes life easier for the young rider. A brand new frame, uprated suspension and brakes manage the improved performance and deliver confident handling and stopping. And the CRF450R's cutting edge design provides styling cues for the CRF125F's bodywork. In essence the CRF125F is built to be everything the young entry-level rider could possibly hope for as they continue their off-road journey. Its tough, reassuring, easy to look after and a whole lot of Fun.
