### Description

CMC Motorcycles is pleased to offer the 2016 BMW F 800 R — a versatile middleweight naked bike that combines everyday practicality with sporty performance, agile handling and premium BMW engineering. Designed to bridge the gap between commuter-friendly usability and engaging road riding, the F 800 R delivers a balanced and confidence-inspiring experience suitable for a wide range of riders. At the heart of the F 800 R is a 798cc liquid-cooled parallel twin engine producing around 90 horsepower and 86Nm of torque. The engine delivers smooth and accessible power with strong mid-range performance, making it particularly effective for real-world road riding and everyday commuting. Its flexible nature allows for relaxed cruising while still providing lively acceleration when ridden more enthusiastically. With a kerb weight of approximately 202kg, the bike feels stable at speed while remaining easy to manoeuvre in urban environments and twisty roads alike. The setup is tuned to provide a balance between sporty handling and everyday comfort, giving the bike composed road manners across a wide variety of riding conditions. Braking performance is strong and reassuring, with dual front discs and ABS as standard. The braking system delivers excellent stopping power and predictable feel, complementing the bike's sporty yet accessible character. Ergonomically, the F 800 R offers an upright riding position with wide handlebars and a comfortable seat height around 790–820mm depending on seat option. The riding position provides excellent visibility and comfort for commuting and longer journeys while still allowing a connected and sporty riding experience. At CMC we pride ourselves on customer satisfaction and all of our bikes undergo a 37 point pre delivery inspection which includes a fresh oil and filter service
