### Description

PCX125 - The Best View of the City This is PCX125. But better. Powered by a liquid-cooled 4V engine, delivering smooth acceleration, while still returning amazing fuel economy. Smartly updated styling strikes futuristic lines, to build in further wind protection, plus updated rear disk brake for enhanced stopping power. Stepping up the specification, the new PCX125 DX wears a 5-inch TFT screen with Honda RoadSync smartphone connectivity and intuitive handlebar functionality alongside, updated rear sub tank suspension, for an even smoother ride around town. Not Like Other Scooters And it's always been a futuristic scooter that goes next level, boldly standing out from the crowd. The new PCX125 is no different, just more so. The swooping, stylish bodywork still flows front to back but builds in more wind and weather protection for the rider – with zero excess. The blacked-out screen adds a dose of stealthy elegance. The features you expect are there; the under-seat storage, and USB-C charging socket in the glovebox. Plus, there's one extra factor that's made the PCX125 so popular – its build quality. This scooter is built to last. Stay fully connected. Or keep it simple. Introducing the new PCX125 DX. The PCX125 carries on with the 'widescreen' LCD display that serves up all the vital information you need. The new PCX125 DX adds premium remote reservoir rear shocks and a full-colour 5-inch TFT screen – optically bonded for incredible bright light readability – with smartphone functionality of Honda RoadSync. Controlled by a backlit four-way toggle switch on the left handlebar you've got full on-screen turn-by-turn navigation, plus many other features (including calls and music via a helmet-mounted Bluetooth headset). So ride free, or stay fully in the loop. The choice is yours. Available now and in stock at CMC Motorcycles.
