### Description

CMC Motorcycles is pleased to offer the 2023 Honda CB500X — a highly versatile adventure-style motorcycle that blends everyday practicality, comfortable ergonomics and dependable twin-cylinder performance. Designed as a lightweight adventure tourer, the CB500X is equally at home commuting through the city or exploring longer open-road journeys. At the heart of the CB500X is a 471cc liquid-cooled parallel-twin engine, producing around 47–48 horsepower and 43Nm of torque. This proven engine delivers smooth, predictable power with a strong mid-range, making it accessible for newer riders while still offering enough performance for more experienced users. Its efficiency and flexibility make it ideal for both daily riding and longer trips. Suspension is a key highlight, featuring 41mm Showa upside-down front forks and a Pro-Link rear monoshock. This setup provides improved ride quality, better front-end feel and increased comfort across varying road conditions, from urban streets to rougher terrain. Braking performance has been upgraded with dual front discs and ABS, delivering strong and consistent stopping power. This enhances rider confidence, particularly when carrying luggage or riding in mixed conditions. Ergonomically, the CB500X offers an upright riding position, wide handlebars and a seat height of around 830mm. This layout provides excellent visibility, comfort and control, making it well suited to long-distance touring as well as everyday commuting. Styling is unmistakably adventure-focused, with a tall stance, protective bodywork and a large windscreen that improves wind protection on longer rides. The design balances rugged capability with modern Honda refinement, giving it a purposeful yet approachable appearance. Rider features are kept simple and effective, including ABS, assist and
