Description

The Triumph Bonneville Bobber is a striking interpretation of the traditional British bobber, combining timeless custom styling with modern engineering, technology and impressive performance. With its unmistakable silhouette, minimalist design and muscular stance, the Bobber offers a truly distinctive riding experience. Powered by Triumphs highly regarded 1200cc High Torque, liquid-cooled parallel-twin engine, producing approximately 76bhp and an impressive 106Nm of torque, the Bonneville Bobber delivers strong, effortless acceleration with plenty of low-down pulling power and a distinctive twin-cylinder soundtrack. Paired with a smooth six-speed gearbox and torque-assist clutch, it provides an engaging yet relaxed riding experience. The Bobbers unique design features a floating single seat with adjustable riding position, a cleverly concealed rear monoshock to create the appearance of a traditional hardtail frame, minimalist bodywork and a beautifully sculpted fuel tank. The wire-spoked wheels, rubber fork gaiters and twin brushed stainless-steel exhaust silencers complete its unmistakable custom-inspired appearance. Standard equipment is equally impressive, featuring ride-by-wire throttle, two selectable riding modes (Road and Rain), switchable traction control and ABS braking. The braking system comprises a 310mm front disc with Nissin two-piston calliper and a 255mm rear disc, providing confident stopping power. Further features include LED rear lighting, LED indicators, an immobiliser and a multifunction single-dial instrument display incorporating an analogue speedometer with digital
