£164,995.00

Engine Size (in ccm)	5,204	Fuel	Petrol
Mileage	29,647 Miles	Model Year	2014
Power	610 BHP	Transmission	--

Description

Brief Viewing by appointment only. We are thrilled to present this Twin Turbo Lamborghini Huracán LP610-4. This stunning example is finished in a Verde Mantis, a highly desirable colour which is synonymous with the Huracan. Twin Turbo converted by our partners at JM Imports 901.49bhp at the wheels (around 1060bhp at flywheel on high boost) Syvecs ECU with Haldex Controller (not a low spec DS1 flash map conversion) CT Carbon lip kit CT Carbon rear spoiler KW suspension Verde Mantis paint Front end PPF Front lift Carbon ceramic brakes Red calipers Mix of Lamborghini & Specialist service history 2qty original keys Original purchase invoice One of only 1,540 2014 Model year cars It is no secret that the V10 Lamborghini / R8 engines respond extremely well to the Twin Turbo conversions, JM Imports have built a reputation for being amongst the best in the business for these conversions, especially with Romain from Racecal doing the tuning work. The car is still extremely driveable & useable but then is supremely fast should you so wish to exploit its full performance potential. History Originally supplied by Lamborghini London, within the history file is the original purchase invoice. The original binder retaining original handbooks is of course present, with the service book & service records. Service history: 2017 – 6,521 miles 18 – 9,235 20 – 15,089 21 – 21,641 21 – 25,461 (front lift pump) 22 – 26,958 23 – 27,869 23 – 27,900 (Twin Turbo Conversion) 26 – 29,455 MOT History: 18 – 8,299 19 – 11,541 20 – 12,912 21 – 21,650 22 – 26,940 23 – 27,886 26 – 29,606 Body & Paintwork Finished in 'THE' Huracan colour, Verde Mantis. The Lamborghini Huracan & this colour go hand in hand, instantly recognisable. This example has been enhanced with the addition of a CT Carbon lip kit & a CT Carbon rear spoiler. These along with the

black wheels work really nicely against the Verde Mantis. The rear bumper is said to fit with this twin turbo conversion, and is included in the sale. Please consider that the rear bumper may require modification/trimming to fit. Interior & Trim Step inside to discover a cockpit that's meticulously crafted for both luxury & functionality. High quality materials, including premium leather & carbon fibre accents, create an environment that is both opulent & driver centric. The digital instrumentation & advanced connectivity options keep you informed & in control, while customizable drive modes allow you to tailor the ride to your mood, whether for everyday cruising or spirited driving. The only none original addition is the boost controller dial, which is placed nicely next to the wheel but out of obvious sight so as not to look out of place. Just like the rest of the car, the interior is in good condition. Engine Originally powering the Huracán is a naturally aspirated 5.2L V10 engine, delivering an awe-inspiring 610 PS & a staggering 560 NM of torque. The Huracán is an impressive car in terms of performance even today, so 10+ years on from release, with a claimed 0-60mph time of under 3 seconds, offering a driving experience that's both visceral & refined. However – this example boasts a Twin Turbo conversion, which suits these cars perfectly as (when built/setup properly) they retain usability whilst raising the performance levels well to within the modern Supercar & even Hypercar levels. As well as making incredible noises of course. It is a match made in heaven & the results are well documented worldwide. Having been converted by JM Imports you can rest assured the work has been carried out correctly & to a high standard – as has the tuning work, which uses a state of the art Syvecs ECU with Haldex Controller to control everything. Three boosts setting are available along with rolling anti lag. Not the usual low spec flash map, this ECU is around £12,000.00 alone. Obviously, the car runs as it should do & is mighty impressive on the road with the most glorious of V10 & turbo noises to compliment it. Running Gear The car drives extremely well just as you would hope, the wheel alignment was setup by Automotive Performance Tuning who are very highly regarded for such works. Front lift works without any faults, just as it should do. Tyres are Michelin Pilot Sport 4's.
