Description

CMC Motorcycles is pleased to offer the 2020 Honda CMX500 Rebel — a lightweight modern cruiser that combines accessible performance, low-slung styling and everyday usability in a highly approachable package. Designed for newer riders as well as experienced motorcyclists wanting a relaxed and stylish machine, the Rebel 500 delivers confidence-inspiring handling with Honda reliability and distinctive custom-inspired looks. At the heart of the Rebel is a 471cc liquid-cooled parallel twin engine producing around 46 horsepower and 43Nm of torque. Shared with Honda's CB500 range, the engine is known for its smooth delivery, excellent fuel economy and user-friendly performance. It provides enough power for motorway riding while remaining easy to manage in town and for less experienced riders. With a kerb weight of approximately 190kg and a low seat height around 690mm, the Rebel feels stable, manageable and easy to manoeuvre at low speeds, making it especially popular with newer riders and shorter riders alike. Braking performance is reassuring and confidence-inspiring, with a front disc and rear disc supported by ABS as standard. The braking system offers smooth and controllable stopping power that complements the bike's approachable character. Ergonomically, the CMX500 Rebel features a relaxed cruiser riding position with mid-mounted foot controls and wide handlebars, creating a comfortable and natural posture without the extreme stretched-out feel of larger cruisers. The low seat and slim chassis make it especially easy to ride and confidence-inspiring in urban environments. Styling is one of the Rebel's strongest features, combining minimalist bobber-inspired design with modern details. Blacked-out engine components, chunky tyres, a low-profile fuel tank and compact bodywork give the bike a clean, custom-style
