Description

CMC Motorcycles is pleased to offer the 2024 Honda CBR600RR — a race-focused supersport motorcycle that represents the pinnacle of Honda's middleweight performance engineering. While often misidentified by variant names such as "CBR600R3-R", the correct model is the CBR600RR, a machine developed with direct influence from Honda's racing programme. At the heart of the CBR600RR is a 599cc liquid-cooled inline four-cylinder engine, delivering approximately 119 horsepower with a strong emphasis on high-revving performance. The engine is designed to build power aggressively toward the top of the rev range, offering razor-sharp throttle response and a thrilling, track-focused character while still maintaining refined road usability. The chassis is engineered for precision, featuring a lightweight aluminium frame that delivers exceptional rigidity and agility. The geometry is designed to provide fast, accurate steering and outstanding stability through high-speed corners, making it a true supersport weapon for both road and circuit use. Aerodynamics play a major role in the bike's design, with sharp, MotoGP-inspired bodywork that improves high-speed stability and airflow efficiency. The compact, aggressive riding position places the rider in full control, prioritising feedback, precision and cornering performance over comfort. Rider technology is advanced, featuring a 6-axis IMU system that manages traction control, wheelie control and cornering ABS. Additional features such as riding modes, engine braking adjustment and a quickshifter enhance performance while allowing riders to tailor the bike's behaviour to their style and conditions. At CMC we pride ourselves on customer satisfaction and all of our bikes undergo a 37 point pre delivery inspection which includes a fresh oil and filter service unless recently changed, if the
