Description

CMC Motorcycles is pleased to offer the 2022 Royal Enfield Himalayan E5 — a simple, rugged and highly capable adventure motorcycle designed for real-world exploration and everyday practicality. Built with a focus on durability, comfort and versatility rather than outright performance, the Himalayan has earned a strong reputation as an approachable and dependable adventure bike equally suited to commuting, touring and light off-road riding. At the heart of the Himalayan E5 is a 411cc air/oil-cooled single-cylinder engine producing around 24 horsepower and 32Nm of torque. The engine is tuned for strong low-end and mid-range response, delivering smooth and manageable power that works particularly well on rough roads, trails and everyday journeys. Its relaxed nature and simple design contribute to the bike's reputation for reliability and ease of ownership. Braking performance is predictable and reassuring, with a front disc and rear disc supported by dual-channel ABS as standard. The ABS system is tuned to work effectively both on-road and during light off-road riding. Ergonomically, the Himalayan is designed for comfort and control, featuring a relaxed upright riding position, wide handlebars and a manageable seat height around 800mm. The riding position allows excellent visibility and comfort over long distances while also making it easy to stand on the pegs during off-road riding. Styling is purposeful and rugged, with minimalist adventure-bike bodywork, a large front mudguard, rear luggage rack and practical design details throughout. The Himalayan's appearance reflects its utilitarian nature and focus on function over unnecessary complexity. At CMC we pride ourselves on customer satisfaction and all of our bikes undergo a 37 point pre delivery inspection which includes a fresh oil and filter service
