### Description

CMC Motorcycles is pleased to offer the 2019 Triumph Bonneville Street Twin — a modern classic roadster that combines timeless British styling with smooth torque-rich performance, premium build quality and everyday usability. As one of Triumph's most popular Bonneville models, the Street Twin delivers approachable handling and strong real-world comfort while retaining the character and charm of a traditional British twin. At the heart of the Street Twin is a 900cc liquid-cooled parallel twin engine with a 270-degree crank, producing around 64 horsepower and 80Nm of torque. The engine is tuned for strong low and mid-range performance, giving the bike effortless acceleration and a relaxed riding character that suits both commuting and weekend riding. The 2019 update brought a noticeable increase in power over earlier versions while retaining the smooth, accessible nature of the engine. Braking performance was upgraded for 2019 with a Brembo four-piston front caliper and single front disc supported by ABS as standard. The braking system offers strong, progressive stopping power and excellent control for a modern classic motorcycle. Ergonomically, the Street Twin features a relaxed upright riding position with wide handlebars and a low seat height around 760mm, making it highly accessible and confidence-inspiring for riders of all experience levels. The comfortable riding position also makes it well suited to longer journeys and everyday use. Styling is one of the Street Twin's strongest features, with classic Bonneville-inspired lines, minimalist bodywork, brushed metal detailing and high-quality finishes throughout. The bike successfully blends traditional design cues with subtle modern touches such as LED lighting and a clean digital-analogue instrument layout. Technology includes ride-by-wire throttle, traction
