### Description

CMC Motorcycles is pleased to offer the 2017 Ducati Scrambler Icon — a stylish modern retro motorcycle that blends classic scrambler-inspired design with lightweight handling, accessible performance and Ducati character. Created to deliver a relaxed and enjoyable riding experience, the Scrambler Icon quickly became one of Ducati's most popular models thanks to its approachable nature and strong custom-inspired appeal. At the heart of the Scrambler Icon is an 803cc air-cooled L-twin engine producing around 73 horsepower and 67Nm of torque. The engine delivers smooth, punchy performance with strong mid-range character and the distinctive feel associated with Ducati's V-twin motorcycles. Its flexible power delivery makes the bike equally comfortable for commuting, urban riding and weekend road trips. Braking performance is strong and predictable, with a single front disc and radial-mounted Brembo caliper supported by ABS as standard. The braking system provides good feel and confidence without feeling overly aggressive. Ergonomically, the Scrambler Icon features a relaxed upright riding position with wide handlebars and a comfortable seat height around 790mm. The natural riding position and lightweight feel make the bike highly accessible to a wide range of riders. Styling is one of the bike's biggest attractions, combining retro-inspired bodywork with minimalist design, exposed frame elements and classic scrambler proportions. The teardrop fuel tank, round headlight and simple tail section give the bike a timeless custom-bike appearance while still feeling modern and premium. Technology is intentionally simple but effective, with fuel injection, ABS and LED lighting integrated discreetly to maintain the bike's stripped-back character. Ducati also designed the Scrambler range with customisation
