### Description

CMC Motorcycles is pleased to offer the 2017 Suzuki V-Strom DL650 — a highly respected middleweight adventure-touring motorcycle known for its reliability, comfort and outstanding all-round versatility. Whether used for commuting, touring or light adventure riding, the V-Strom 650 has built a reputation as one of the most capable and dependable bikes in its class. At the heart of the DL650 is a 645cc liquid-cooled 90-degree V-twin engine, producing around 69 horsepower and 69Nm of torque. The engine delivers smooth, predictable power with excellent mid-range performance, making it equally comfortable cruising on motorways or tackling twisty back roads. Its refined character and proven durability have made it a favourite among long-distance riders for many years. The bike also benefits from Suzuki's Low RPM Assist and Easy Start System, helping make low-speed riding and everyday use even smoother and more manageable. The chassis is lightweight and well balanced, offering excellent stability and confidence across a wide variety of riding conditions. With its upright riding position and adventure-style ergonomics, the V-Strom is comfortable over long distances while remaining agile enough for daily commuting. Braking is handled by dual front discs and a rear disc with ABS as standard, providing reassuring stopping power and improved safety in changing weather and road conditions. Ergonomically, the DL650 is designed for long-distance comfort, with a relaxed upright seating position, wide handlebars and an adjustable windscreen offering excellent wind protection. The seat height of around 835mm provides a commanding riding position with good visibility on the road. Styling is rugged yet practical, featuring the distinctive "beak" front end, stacked headlights and purposeful adventure-bike stance. The design reflects
