Description

CMC Motorcycles is pleased to offer the 2017 Triumph Tiger Explorer XRT — a premium, road-focused adventure motorcycle that combines long-distance comfort, powerful triple-cylinder performance and a high level of standard equipment. As the top specification in the XR range, the XRT is designed for riders who prioritise touring capability, technology and refined road manners. At the heart of the Tiger Explorer XRT is a 1,215cc liquid-cooled inline three-cylinder engine, producing around 137–139 horsepower and 123Nm of torque. This characterful triple delivers strong, linear power with excellent mid-range pull, making it ideal for effortless motorway cruising and confident overtaking. Its smooth and flexible delivery ensures a relaxed yet engaging riding experience. The chassis is built around a robust tubular steel frame paired with shaft drive, offering durability and low maintenance for long-distance riding. Ergonomics are designed for long-distance comfort, with an upright riding position, wide handlebars and an adjustable seat height. Features such as a height-adjustable windscreen further enhance its touring capability, making it well suited to extended journeys in all conditions. Braking performance is strong and reliable, with twin front discs and Brembo calipers providing powerful, controlled stopping. ABS and traction control are standard, working alongside multiple riding modes — to adapt the bike to different environments. Styling is purposeful and commanding, with a tall stance, integrated bodywork and a premium finish that reflects its flagship status. The XRT's design emphasises practicality and presence, reinforcing its role as a long-distance adventure tourer. At CMC we pride ourselves on customer satisfaction and all of our bikes undergo a 37 point pre delivery inspection which includes a fresh oil and filter
