Description

CMC Motorcycles is pleased to offer the 2019 Indian Scout — a lightweight, stylish cruiser that blends classic American design with modern engineering and strong V-twin performance. As one of Indian Motorcycle's most accessible and popular models, the Scout delivers a smooth, engaging ride with a strong focus on balance, usability and character. At the heart of the Scout is a 1,133cc liquid-cooled V-twin engine, producing around 100 horsepower and 97–98Nm of torque. This engine is known for its smooth, linear power delivery and strong mid-range pull, offering confident acceleration and relaxed cruising capability whether in town or on open roads. The chassis is designed around a rigid steel frame that contributes to stable handling and a planted feel on the road. Despite its cruiser styling, the Scout is relatively light for its class, making it more agile and easier to manoeuvre than many traditional heavyweight cruisers. Braking performance is handled by front and rear disc brakes with ABS, delivering strong and consistent stopping power for added confidence in everyday riding conditions. The system is designed to match the bike's performance and relaxed cruising character. Ergonomically, the Scout features a low seat height of around 643–655mm, forward-set foot controls and a relaxed riding position. This low-slung stance makes it accessible to a wide range of riders and reinforces its laid-back cruiser feel, while still maintaining a comfortable posture for longer rides. Styling is a key highlight, with classic cruiser proportions, a teardrop fuel tank, minimalist bodywork and signature Indian design cues. The exposed V-twin engine, alloy wheels and clean lines give it a timeless yet modern custom-inspired look. Rider features are kept simple to maintain its classic character, with fuel injection for reliability,
