of this popular workhorse. All the panels remain free from damage, scuffs and unsightly dings. The light clusters are crystal clear and none of the plastics have suffered from fade including the wrap around bumpers. All chrome badges sparkle and the factory fitted glass is free from chips still with the Renault Assistance and accident support line sticker attached to the front screen. The underside is remarkable, spotlessly clean with factory labels, stickers and stampings all clearly visible. Place this pampered example in a Renault new van showroom and it would stand proud against its much younger siblings! INTERIOR This interior is fabulous in all areas throughout. The Galatone hardwearing fabric trim has seen little use, and certainly with no dirty overalls! The door cards, rubber flooring with rubber mats and headlining are spotlessly clean. All controls, displays and switchgear operate perfectly with two vent flaps missing to the passenger side. The steering wheel and gear knob have no wear with defined grain. The cargo area to the rear is utterly incredible with so few marks to the floor, sides and full steel bulkhead, it is a wonder it has transported anything but fresh air! Even a factory barcode identification label remains stuck to the cargo floor! All door shuts, including the 180 degree rear doors and side loading door, are squeaky clean. ENGINE & TRANSMISSION This Renault Trafic panel van is fitted with the more powerful 2.0 Common Rail 115bhp four cylinder dCi diesel engine. With 300Nm or torque at just 1500rpm and a top speed of 93mph, this unassuming commercial vehicle will entertain! Proven technology, regular maintenance and miniscule miles will help ensure the second owner has many years and miles of enjoyment left but if the show circuit is more your thing, lift the bonnet and wow the crowds! The 6-speed manual transmission is light, precise and a joy to use. WHEELS, TYRES & BRAKES The factory fitted 16in steel wheels with full length trims are as new with Continental Vanco2 205/65 R16C tyres. The spare tyre has never been used and remains in pristine condition to the underside. The powerful four disc brakes with anti-lock braking system and Electronic Brake Force Distribution (EBD) operates perfectly. HISTORY FILE This second generation X83 Renault Trafic Panel Van will be one of the last to be registered before the third generation X82 was launched in 2014. This model was a joint venture between Vauxhall and Nissan with the Vivaro and Primastar. Registered new on the 31st March 2014, the first and only keeper was Kinto UK Limited. A bespoke vehicle management company supplying vehicles to the public sector. A digital printout confirms 22 entries on the maintenance history and combined with the annual MOT records, warrants the mileage of just 6,731. Handbooks, spare keys and a sales brochure are all present. This commercial vehicle must not be compared to the usual hard worked, abused and neglected examples found in dwindling numbers and will appeal to the perfection seeking individual. Alternatively, at a list price of £37,475, why not make a saving on a new one!? Please note, there is no VAT to pay on the advertised price. HPI Clear.

About Us

KGF Classic Cars was formed by the owner's desire to pass on the enjoyment of amazingly original, modern classic cars and the pleasure these vehicles offer to their appreciative owners. The eldest son of Italian-born parents – whose families came to the Cambridgeshire Fens after WWII to make bricks for new housing – Karl Fasulo grew up in the 70s and 80s when there were fewer cars on the roads. His appreciation of beautiful motors began when his engineer father, Sav, purchased a red 1983 Mercedes 280SL as a weekend car back in 1985. That same Mercedes is still well-loved and driven regularly by Karl and is now in the showroom for all to see! After a successful career spanning two decades selling and managing premium vehicles for dealerships in London and Cambridgeshire, Karl decided to set up KGF Classic Cars, to source original, modern classic cars and share them with like-minded knights of the road. He says: "As a kid, I would squeeze in the back of our lovely red Mercedes with my brother and sister (seatbelts were not mandatory at that time!) – Mum and Dad in the front and all of us enjoying the outing. I would gaze out at other cars and my brother and I would shout out all the makes and models of the ones going by! "With encouragement from my father, I entered the world of classic cars at 15, when I saved up and bought a 1964 Riley Elf Mk 2. This car was cleaned and polished every weekend until I was 17 when I threw away my L-plates and took to the road. My interest never subsided, even during my career at BMW – to the point where driving these older cars gave me more pleasure than the modern offerings. Perhaps it is just happy childhood memories, but there is something about those classics which draws me back to them every time . . ." He added: "I consider it a privilege to meet and do business with people who love them as much as I do. So, whether you are buying or selling – or just browsing (taking a spin down memory lane, perhaps!) I hope you enjoy this website." All the vehicles offered by KGF Classic Cars are personally checked, meticulously inspected and driven by us to ensure they meet the incredibly high standards that are becoming very hard to find. The cars are eventually selected with the ultimate aim of providing the new owner with the best possible experience of that model, whatever it may be. Visit our purpose built secure showroom for viewings, test drives and a relaxed buying experience, whereby fresh coffee and refreshments can be enjoyed in a friendly and lighthearted environment.
